## Current rail alerts

When Metro is informed of disruptions to train services affecting West Yorkshire, they are displayed below.

  [Find us on Facebook and follow us on Twitter](#)

[Planned disruptions and engineering works](#)

### Before you travel

Check for current alerts, [planned disruptions and engineering works](#) before you travel on our live National Rail feed.

[Huddersfield Line \(Leeds-Huddersfield-Manchester\)](#)

Each Sunday until 24 June trains will be diverted between Huddersfield and Manchester due to engineering work.

Between Leeds and Manchester some services will have extended journey times and some journeys will not stop at Huddersfield.

Local Northern Rail services between Huddersfield and Manchester will be replaced by bus with services only stopping on Manchester Road in Slaithwaite and Marsden.

You can plan alternative journeys with [Metro's Journey Planner](#) or the [National Rail Enquiries Planner](#).

[Engineering work affecting Horsforth Station car park](#)

Up to 15 spaces in Horsforth Station car park will be unavailable from Thursday 19 April, for six months, while essential track and signalling improvement work on the Harrogate rail line is carried out.

Contractors on the project, which will result in improvements for Harrogate line passengers, need the space for heavy construction equipment and lorry access.

If, during the project, there are periods when the spaces are not required, Network Rail will remove the restrictions."
