

[Listen to this page](#)

What is the difference between yournextbus predicted times and scheduled times?

Real time is the estimated departure time of a tracked bus. Scheduled time is a timetable time shown when the real time is not available.

Real times are shown in minutes (e.g. "3 mins") whereas scheduled times are shown as a 24hr clock time (e.g. "14:29").

On the internet and WAP, pages automatically refresh and will count down for tracked buses e.g. 3 mins, 2 mins and Due when the bus is less than 90 seconds from it's predicted departure.
